Professional Summary

A dedicated software engineer with experience building modern web applications, leading cross-functional teams, and delivering high-quality software solutions. Proficient in full-stack development with a focus on scalable architecture and clean code.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, SQL
Frameworks: React, Node.js, Express, Django, Spring Boot
Tools: Git, Docker, AWS, PostgreSQL, MongoDB, Redis
Concepts: RESTful APIs, Microservices, CI/CD, Agile, TDD

Experience

Senior Software Engineer 2022 – Present
Company Name, City, State

- Led development of key product features serving 100K+ users using React and Node.js
- Designed and implemented RESTful APIs reducing response times by 40%
- Mentored 5 junior developers through code reviews and pair programming sessions
- Established coding standards and automated testing pipelines

Software Engineer 2019 – 2022
Company Name, City, State

- Built and maintained full-stack web applications using React, TypeScript, and PostgreSQL
- Collaborated with product and design teams to deliver features on schedule
- Reduced bug count by 30% through comprehensive unit and integration testing
- Migrated legacy codebase to modern architecture, improving maintainability

Junior Software Engineer 2017 – 2019
Company Name, City, State

- Developed new features for customer-facing web application
- Contributed to code reviews and improved overall test coverage to 85%
- Participated in Agile ceremonies and sprint planning

Education

Master of Science in Computer Science

2015 – 2017

University Name, City, State

- Thesis: Distributed Systems and Cloud Computing
- Research focus on scalable microservice architectures

Bachelor of Science in Computer Science

2011 – 2015

University Name, City, State

- Dean's list for academic achievement
- Relevant coursework: Data Structures, Algorithms, Software Engineering

Certifications

- AWS Solutions Architect – Associate
- Certified Kubernetes Administrator (CKA)
